Note: The columns show the 2006 members compared to 2005 for financial members, non-financial members, corporate members (members not institutions) and emeritus members (retired members).

ATEM has a rolling membership year, and there is a 90 day grace period before a person's membership is cancelled. Therefore the non-financial members are separates into less than 90 days and who are likely to renew, and those who are more than 90 days and are cancelled, but kept in the database for follow-up at some point in the future.
